SUMMARY

Senior Applied Data Scientist with **4+ years** of experience in **data analytics, customer behavior analysis, product analytics, machine learning, and client consulting**. Skilled in leading global projects, stakeholder management and solving complex problems.

Consistently delivering actionable insights and data-driven strategies to enhance business performance.

Aspire to grow my career in an organization that has diverse projects, client interactions, and opportunities for skill enhancement.

TECHNICAL SKILLS

- **Data Analytics:** SQL, PySpark, Spark, Python, Statistics, Decision Trees, Clustering, Predictive Modeling, A/B Testing, LLMs, Gen AI
- **Data Visualization & BI:** Power BI, MS Excel, Redash, Power Query

WORK EXPERIENCE

Dunnhumby | Gurgaon

Senior Applied Data Scientist - Customer Behavior Insights

Jun 2024 – Present

- Led end-to-end store profiling, validated and re-clustered 300+ stores using decision tree analysis, improving accuracy by 20%.
- Identified and resolved price sensitivity segmentation issues affecting 2 million customers, addressing unstable trends.
- Restructured the product table by integrating anomaly detection and weight conversion, improving code stability by 10%.
- Implemented topic modeling to classify retail transactions into shopping missions, to improve targeted marketing.
- Applied LLMs with custom prompt engineering to automate insights from categorical retail datasets, reducing manual effort.
- Independently managed and delivered 10+ client solutions, presenting complex insights clearly to clients while maintaining confidentiality of methodologies.

Applied Data Scientist - Product Insights

Sept 2023 – Jun 2024

- Automated recurring ETL workflows using PySpark on GCP, reducing 800+ hours of manual effort per year.
- Designed and optimized 3 analytical solutions - Better Basket Analysis, Product Group Analysis, and Control Stores Selection.
- Applied machine learning to projects like Catalyst Analysis, Consumer Viewpoint Analysis and Customer Segmentation, improving targeting and personalization for over 10 million customers.

Applied Data Scientist - Seasonal Event Insights

July 2022 – Sept 2023

- Designed and maintained 4 high-impact solutions - Cross Shop Solution, What's in the Basket, Customer Penetration, and Seasonal KPIs Dashboard - using PySpark to streamline performance tracking.
- Led new product development (NPD) analysis, identifying trends that increased product sales by 15% in the next quarter.
- Provided insights on 10+ seasonal events, deciding marketing and event strategies to enhance outcomes for upcoming year.

LikeMinds | New Delhi

May 2021 – July 2022

Data Analyst (Independent Consultant)

- Built four event dashboards and two GMV dashboards for real-time business monitoring.
- Conducted root cause and deep dive analyses on weekly OKRs, driving 10% improvement in key performance indicators.
- Engineered 200+ SQL queries on Redash to support diverse cross-functional data needs.

INTERNSHIPS

Future Generali | Mumbai

Oct 2021 – Apr 2022

Data Science (Intern)

- Automated 3 executive MIS dashboards in Power BI, reducing report generation time by 70% and enabling real-time decisions.
- Developed 5 Power BI dashboards (weekly & daily reports), enhancing team efficiency by saving 25+ hours weekly.

EDUCATION

- **Master of Operational Research** | Hindu College, **University of Delhi** | **8.35 CGPA** | 2020 - 2022
- **B.Sc. (H) Mathematics** | Gargi College, **University of Delhi** | **8.78 CGPA** | 2017 - 2020
- **CBSE XII (PCM)** | Army Public School, Hisar | **92.8%** | 2016 - 2017
- **CBSE X** | Army Public School, Hisar | **10 CGPA** | 2014 - 2015

ACHIEVEMENTS

- Achieved 1st place in **Dunnhumby - Hackathon** by developing a model for the best-suited Clubcard proposition for customers.
- Secured **AIR 97** in IIT JAM (Mathematical Statistics), 2021.
