

Shruthi Bhupathiraju

Associate Software Engineer (GenAI Developer)

bh.shruthi2002@gmail.com | +91 9503388889 | DOB - 28 Jan, 2002

SKILLS

PROGRAMMING

Languages

- Advance: Python
- Intermediate: C, Java

Tools

- Langflow • GIT • Linux • Windows

Frameworks

- Django
- FastAPI
- Angular

Technologies

- Gen AI (RAG, Agents, LLM,...)
- SQL • PostgreSQL • GitHub
- AWS Services
- GitLab CI/CD • HTML • CSS
- Linux Shell Scripting Commands

OTHERS

- Crafting
- Playing Badminton

SOFT SKILLS

- Problem-solving
- Leadership
- Teamwork & Time management

EDUCATION

B. Tech, CSE

N. K. Orchid College of Engg. &

Technology

2019-23 | Solapur

CGPA: 9.5

HSC, PCM

St. Joseph Junior College of Science

2017-19 | Solapur

Percentage: 83.38%

CBSE

Podar International School

2016-17 | Solapur

CGPA: 9.2

LANGUAGES KNOWN

- English • Hindi • Telugu • Marathi

CAREER OBJECTIVE

Generative AI Developer with 2 years of experience building solutions using LLMs, agentic workflows, Python, and AWS. Passionate about GenAI and cloud technologies, with a focus on delivering innovative, scalable solutions while continuously learning in dynamic environments.

EXPERIENCE

KPIT Technologies Associate Software Engineer | Oct 2023 - Present | Pune, India
Software Development Gen AI Developer | Python | AWS | Angular

- Worked as a Generative AI Developer, implementing RAG pipelines with LLMs, LangChain, and LangFlow.
- Built FastAPI-based UIs to serve AI workflows and integrated PostgreSQL for data persistence.
- Designed and optimized agents and prompts to deliver accurate, domain-specific responses.
- Automated AWS resource management using Python and Boto3.
- Implemented CI/CD pipelines with GitLab and contributed to frontend development using Angular, HTML, and CSS.
- Collaborated in Agile sprints using JIRA and led client demos/POCs to showcase features and gather feedback.

Sciqus Infotech Pvt. Ltd Trainee Intern | Feb 2023 - Aug 2023 | Pune, India

FULL-STACK Developer Python | Django

- Developed web application using Django as per company requirements.

PROJECT(S)

End-to-End RAG Pipeline with LLMs Gen AI | Python

Built a RAG pipeline with LLM calls, PostgreSQL integration, and FastAPI UI for client-specific solutions.

Agents Development with LangFlow and CrewAI Agentic AI | Python

Built LangFlow agents and migrated to Python with CrewAI.

Predicting Audi Car Price using Machine Learning Python | ML | Django

Developed a Machine Learning application that predicts the price of Audi Cars.

ACHIEVEMENTS

Spot Award in KPIT (High Flyer Award) and High Performer in KPIT Genesis Training

Code Champion Certificate - Sciqus Infotech Pvt Ltd

Top Performer in B Tech with highest CGPA

Received Merit Certificate and scholarship in 11th and 12th

CERTIFICATIONS

Programming for Everybody (Python) : By Coursera

Gen AI Fundamentals : By Udemy

Employability Skills Development training : By Zensar Technologies

RAG - Gen AI : By Udemy

Deep Learning : By NPTEL

GCP Skill Badges : By Google Cloud

Scrum Developer : By Udemy
